SUPPLEMENT TO
REPORT NO. [REDACTED] 25X1A

1. On or about 25 May 1948, to the surprise of the Russians concerned, orders were received for the dissolution of Technical Bureau No. 11, An der Wühlheide, Berlin. This has involved the following changes:
 - a. Colonel Nechayev (Nechaev?), former bureau chief, and Captain Volchkov (Volikov?), procurement officer, have returned to Russia.
 - b. German engineers working at the bureau have not been released, but have been transferred to other Soviet agencies. Those still at the bureau are being paid every two weeks instead of monthly.
 - c. All papers on current orders for machines and material have been turned over to Elektrobau Sondershausen (EBS), where Lt. Col. Krynetzky is now head of all EBS and former Technical Bureau No. 11 activities.
 - d. Two Russians from Technical Bureau No. 11 have been assigned to EBS: Polikin is the new construction department chief and Sitov is the plant manager.

25X1X [REDACTED] Comment: It is believed that the dissolution of Technical Bureau No. 11 is mere camouflage and that another office for the same work will be opened.)

2. Elektrobau Sonderhausen also has been given work originally meant to have been done by the Siemens plant in Zwicknitz (K53), a Soviet AG which has been shipped to the USSR. This includes the production of 100 super radios and "Schleifenoszillographen" (#6 and #9 oscillographs, of which #9 is said to be new).

25X1X [REDACTED] Comment: This is presumed to be no more than interim work designed to fill time between completion of the EBS mobile truck program and the start of the as yet unknown project which has been given a budget of RM 1,500,000.)

CONFIDENTIAL In accordance with the
letter of 16 October 1971 from the
Director of Central Intelligence to the
Archivist of the United States.
